EXPERIENCE

Associate Software Engineer

Accenture

September 2024 - Present, Gurugram

- Engineered key features for a secure **finance tool** using **Java (Spring Boot)** and **Retool**, resulting in a **40% reduction** in manual data lookup time. Implemented **JWT authentication** and **Role-Based Access Control (RBAC)** to secure sensitive financial data.
- Built and scaled **RESTful APIs** within a **microservices architecture** using **Java** and **Spring Boot**, handling over **10K+ daily requests** for critical internal and third-party.
- Developed an **automated bulk communication workflow**, eliminating **~15 hours/month** of manual task for the **marketing team** and significantly reducing **human error** in campaigns.
- Implemented a **real-time event monitoring system** using **Apache Kafka**, which enhanced **system observability** and reduced the **Mean Time to Detection (MTTD)** for critical incidents by an estimated **30%**.

Associate Software Engineer

MAQ Software

September 2023 - July 2024, Hyderabad

- Engineered a large-scale data pipeline** to process terabytes of raw financial data for Microsoft's sales division, using Python and advanced SQL to automate data cleansing, which increased data accuracy for reporting by over 99%.
- Designed and developed robust RESTful APIs** using Java and Spring Boot, creating a centralized data backbone that served over 10,000 requests daily to power both the MSXi web portal and live Power BI dashboards.
- Developed and integrated critical new features into Microsoft's large-scale MSXi analytics portal using React.js**, empowering business users with enhanced self-service capabilities that reduced ad-hoc reporting requests by 30%.
- Delivered a suite of automated Power BI dashboards** for executive leadership, visualizing critical KPIs that cut the time for monthly financial reviews by over 40% and contributed to a 5% improvement in sales forecast accuracy.

Software Engineering Intern

The Internet Folks

July 2023 - September 2023, Bhopal

- Developed and improved a mobile app** using **Flutter, GraphQL, and Firebase**, enabling **ride tracking and reward redemption**, leading to a **10K+ user base on the Play Store**.
- Built a React.js-based Admin Dashboard**, automating **user management, reward distribution, and ride analytics**, reducing manual overhead and improving platform efficiency.

SKILLS

- Languages:** Java, Python, SQL, Dart, JavaScript • **Backend:** Spring Boot, REST APIs, Microservices, Apache Kafka
- Databases:** MongoDB, SQL, Redis, Firebase • **Frontend:** Flutter, HTML5, CSS3, React.js
- Cloud & DevOps:** AWS, Docker, Git, GitHub, Linux

EDUCATION

B.Tech, Computer Science and Engineering (Specialization in Artificial Intelligence)

GL Bajaj Institute of Technology and Management • Greater Noida, India • 2024 • 8.1 CGPA

Higher Secondary School, ISC (Mathematics and Computer Science)

St. Joseph's School • Gorakhpur • 2019 • 85.25%

PROJECTS

Contest Hunt-Coding Calendar

- Designed and built ContestHunt, a **full-stack app to track coding contests, hackathons, and bug bounty events** across 15+ platforms, helping 1K+ users stay updated with personalized reminders.
- Developed a **Java + Spring Boot REST API** with Supabase integration for real-time contest data sync, user preferences, and notification scheduling, supporting scalable and maintainable architecture.
- Built a modern, responsive **Flutter frontend** with timezone support, local notifications, and platform filters, delivering a seamless UX for developers and tech enthusiasts. [Playstore]

Birdwatcher's Assistant: AI-Based Bird Species Classification and Info

- Developed a **mobile App** with offline bird species detection and information generation using **Python, Flutter, Firebase, and TensorFlow Lite**, ensuring accessibility in remote areas without internet connectivity.
- Implemented and fine-tuned the Inception v2 CNN model, enhancing bird species detection and achieving 75% accuracy in classifying 500+ bird species.
- Authored a **research paper** on the project, published in the **Journal of Artificial Intelligence Research & Advances**. [https://bit.ly/4dPYGu5]

CERTIFICATIONS AND ACHIEVEMENTS

- Wipro TalentNext Java Full Stack Certification [LINK]
- Algorithmic Toolbox: Data Structures and Algorithms Problem Solving Certification by University of California San Diego [LINK]
- LeetCode Knight (Top 4%)
- Led 20+ social impact initiatives as Community Service Director, **Rotaract Club (2023–24)**, managing 30 volunteers and supporting 200+ underprivileged individuals. [LOR: https://bit.ly/3VOUXPG]
- Mentored 50+ students in Flutter development as App Dev Lead, **GDSC GL Bajaj (2021–22)**, organizing 15+ workshops and technical events. [Certificate]
- PORTFOLIO:** [https://tanay-gupta.github.io/] • **GITHUB:** [https://github.com/Tanay-Gupta] • **LEETCODE:** [https://leetcode.com/tanx4/]
